

Operating/assembly instructions for the Sport-Thieme vibration board set

Thank you very much for choosing a **SPORT-THIEME** product. We want to make sure that you can enjoy this product, so here is some important advice for your safety as well as for the use and maintenance of the equipment. Please read these instructions fully before you assemble and use the equipment.

Included:

1 x Sport-Thieme vibration board (prod. code 251 0604)

- | | | |
|-------|---|---------------------|
| Incl. | 1 | 1x vibration board |
| | 2 | 1x connecting cable |

- 1 x amplifier set (prod. code: 251 0617)
 - 1 x amplifier
 - 1 x subwoofer
 - 2 x speaker

1. General

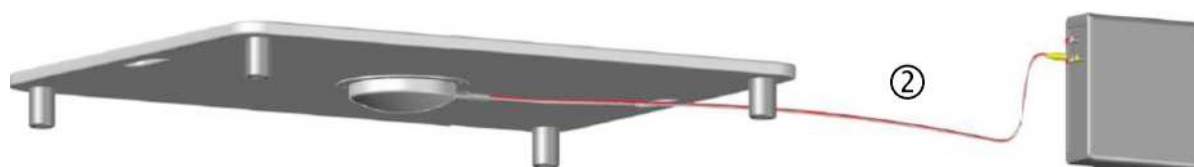

The Sport-Thieme vibration board allows you to feel sound. Due to the integrated vibration generator, the vibrations are transferred to the board and can be felt by the user. You can sit, stand or lie on the board. It is also possible to simply lean against it. The vibration effect can be felt as soon as the body comes into contact with the board. Your body vibrates and feels the sound waves.

In terms of its impact and use, the vibration board is designed and built for universal and easy use. It is low maintenance and is easy to store due to its flat design. During operation, there is barely any additional noise and the board can therefore be used without difficulty in rooms with many people around. The surface can be increased if necessary by placing several boards next to one another. The vibration board is designed in such a way that it can also be used with a wheelchair.

We wish you lots of fun with the Sport-Thieme vibration board.

2. Operating and assembly instructions

To begin operating the board, simply plug the white connecting cable (2) to the amplifier's subwoofer outlet (SW).

The subwoofer included is not required to use the vibrations board. However, it can alternatively be used purely for audio playback. The instructions on how to set up the amplifier can be found on the unit's packaging. The unit can also be used separately for other purposes.
